Blue Cross and Blue Shield of Illinois, New Mexico, Oklahoma and Texas are working to promote safe drug use. One way you can help protect yourself is to carry this Medication Wallet Card with you. On the card you can record all the prescription and over-the-counter medications and supplements you are taking, drug allergies you may have and contact information for your primary care provider. Print copies for yourself and family members, complete all the information, fold the card in half and carry it and your other identification at all times, so you can easily share this information with your doctors.
